Welcome to Optimize Wealth Management

Manage with freedom. Invest with impact.

- A different kind of wealth management firm
- Helping clients reach their personal goals with institutional-level investing and bespoke client service
- Run your business your way with independence and opportunity for exceptional growth, and the tools to make an impact for your clients.

Founder's Message

“When I founded Optimize in 2009, I wanted to build something different: to provide institutional-scale investing with truly personalized service. And to give our advisors a level of freedom they'd never find anywhere else. I won't say we're not demanding and selective of our people. But, if you've got the drive, experience and commitment to your clients, we might be the place where you build your professional legacy.

**Matthew McGrath, President,
Chief Executive Officer, and
Chief Investment Officer**
