Welcome to Optimize Wealth Management

We're a different kind of wealth management firm, with a single-minded mission: to help our clients reach their personal goals with the institutional-level investing and bespoke client service usually reserved for the wealthiest of families. And that's how we ensure our clients benefit from strategies built not just for performance, but for enduring impact.

Our purpose: to empower everyone — no matter their net worth or goals — to access the highest level of wealth management available. Every strategy is designed not just for performance, but to provide security, confidence, and lasting impact.

FOUNDER'S MESSAGE

Manage with freedom. Invest with impact.

I've worked in financial services for over 25 years. I've delivered high-level money management services to Canada's wealthiest families. They enjoyed seamless service for every aspect of their lives, from investments to estates to taxes. And you should too.

When I founded Optimize, I wanted to provide this level of institutional-scale investing and personalized service to all of our clients, regardless of their net worth. Because your hard-earned wealth should be managed with care and grown with purpose.

**Matthew McGrath – President, Chief Executive Officer,
and Chief Investment Officer**

The Optimize Difference

Complete financial care.

Performance

Harness pension-style strategies with disciplined growth and protection. We open doors to exclusive opportunities built to preserve and grow your wealth.

Planning

Seamless integration of tax, estate, insurance, and legacy planning. A bespoke Family Office experience that elevates and simplifies your financial world.

Partnership

Your advisor — a trusted confidant who knows your vision and your family. Our advisors deliver insight, clarity, and enduring partnerships built on discretion and trust.

THE OPTIMIZE DIFFERENCE

Performance

Powerful investment strategies. Long-term results.

Most firms offer access to markets. Few deliver the strength of institutional investing. We bring you the disciplined strategies used by pensions and endowments to protect and grow wealth.

Independent & client-focused

At Optimize, we provide fully independent, institutional investment solutions. We have no retail products to push and no investment banking division to create potential conflicts.

Every strategy is built around our clients' goals, drawing from five core institutional model portfolios that span the full risk-return spectrum. All while providing your clients significant savings on fees.

Driven to deliver results

From our inception in 2009, we have consistently delivered **top-quartile** results, balancing steady growth with principal protection. We have achieved premium institutional returns while also reducing volatility and providing strong downside protection.

Even our most conservative strategies get exceptional results. For example, our **Income Portfolio** has achieved a **12% return** since inception.¹

Invest with confidence.

Portfolio Management Process

Our wealth creation strategy is built on three core components that drive both security selection and asset allocation. These principles guide the Optimize Portfolio Management process, ensuring long-term growth and value for our investors. By balancing equities in large, public companies with pension-style investments from respected managers such as KKR, Apollo, and Goldman Sachs, we deliver a portfolio designed to provide both protection and performance that lasts.

With your advisor guiding you on the journey, you can have peace of mind that you'll reach your personal financial goals.

Foundation in fundamentals

We start with large-cap companies — proven businesses with strong balance sheets, consistent revenue, and stable growth. Each selection is backed by disciplined analysis of fundamentals such as free cash flow, debt-to-equity, price-to-earnings, and return on equity.

Dynamic allocation for protection

Markets evolve and so do our portfolios. We actively rebalance during periods of volatility, shifting allocations to reduce downside risk and capture new opportunities. This deliberate approach helps safeguard wealth while positioning for growth.

Pension-style diversification

To reduce volatility and strengthen long-term performance, we go beyond public equities. By incorporating private equity, infrastructure, real estate, and private credit, our clients gain access to strategies traditionally reserved for pension funds and endowments.

Purpose-built portfolios.

Our institutional portfolios are tailored to your goals, time horizon, and risk tolerance. Whether focused on growth, income, or preservation, we align your portfolio with where you are and where you're going.

All-Growth Portfolio

Provides dependable growth with long-term return potential by emphasizing equity-oriented investments across public and private markets.

Growth-Balanced Portfolio

Strives for strong, long-term returns by tilting toward growth while still balancing risk with income opportunities across markets.

Balanced-Growth Portfolio

Targets steady, long-term returns through a balanced blend of growth and income investments across diverse asset classes worldwide.

Income-Balanced Portfolio

Focuses on yield and growth, blending income-generating securities with growth assets to support return potential over time.

Income Portfolio

Provides dependable yield with long-term return potential by emphasizing income-oriented investments across public and private markets.

Money-Market Portfolio

Preserves capital while generating competitive returns through short-term, high-quality money market and fixed income securities.

Consistent performance across every investment.

Our investment strategy is built to deliver stronger results than traditional market funds. Each portfolio is managed with the same disciplined approach, giving you confidence in both growth and stability.

Registered accounts are invested within these strategies as well, so your retirement and tax-advantaged savings benefit from the same performance-driven oversight.

Financial Planning

A financial plan that evolves with you

Every plan begins with a conversation. We'll talk about your current assets, your long-term goals, and your family's dreams. From there, we design a holistic plan that covers investing, retirement, and protecting your legacy for generations to come.

With a dedicated advisor running point every day, your plan isn't static — it evolves with changing markets and growing families.

The Optimize Planning Process

Our six-part process gives you clarity and confidence at every stage:

1

Define your short, medium, and long-term goals.

2

Develop a plan for your investment approach, tax strategies, and more.

3

Evaluate your financial situation.

4

Align your investments with your objectives.

5

Put your plan into action with ongoing management.

6

Review and refine to stay on track as your life evolves.

Tax Preparation & Planning

With Optimize, you gain a disciplined partner focused on protecting your wealth and building financial confidence for the future.

Taxes shape every stage of your financial life. With the right planning, you can reduce what you owe and preserve more of what you have built. At Optimize, tax preparation is not a once-a-year task. It is an ongoing discipline that keeps your wealth aligned with your goals.

Our team develops tailored strategies across income, investments, and property to ensure your tax situation works in your favour. Whether you are building a business, guiding a family, or managing complex investments, we help you make informed decisions that strengthen your after-tax results.

Your needs are unique. So are our solutions.

The Optimize Family Office provides expert tax preparation for your specific situation. Whether you're a pedigreed professional or a game-changing entrepreneur, we can help maximize your savings and credits.

Will & Estate Planning

Your legacy carries both the wealth you've built and the values you want to endure. It reflects your goals, your purpose, and the future you envision for the next generation. With Optimize, estate strategies are integrated into your Family Office, aligning tax, insurance, and legal planning to protect what you've built and preserve it for the future.

A disciplined approach.

Our estate planning process focuses on three essentials:

1. Preserving more of your wealth by reducing fees and taxes.
2. Ensuring efficiency so your wishes are carried out without delay.
3. Tailoring your plan to reflect the people and causes you care about most.

Will & Estate Planning Process

Our process is thorough, sensitive, and tailored to your goals.

1

Assemble the right team.

2

Create a family balance sheet.

3

Optimize insurance coverage.

4

Draft a will.

5

Designate powers of attorney.

6

Minimize taxes and probate fees.

7

Manage accounts and documents.

8

Update your plan regularly.

Insurance Solutions

Invest with purpose.

Protect with confidence.

True financial security comes from more than growth alone. It requires the confidence of knowing that your wealth and your family are protected through every stage of life. At Optimize, we bring investing and insurance together in a coordinated strategy. Your portfolio grows with discipline while your coverage ensures that unforeseen events do not disrupt your plan.

Life is unpredictable.

Coverage is essential.

Insurance is not only about protection. It is about continuity, stability, and peace of mind. The right coverage safeguards your income, preserves the wealth you intend to pass on, and gives you the assurance that your financial future is secure. Whether planning for retirement, managing a career, or preparing for the next generation, coverage ensures that your goals remain intact, even through change.

For individuals

Insurance strengthens your financial plan by protecting your income, shielding your estate, and reducing the impact of taxes. It creates liquidity when needed and can provide an additional source of income in retirement. By integrating insurance with your investments, you gain balance, resilience, and confidence in your path ahead.

For business owners

Insurance also plays a vital role in protecting and strengthening your business. It provides the funding required for ownership transitions, ensures corporate assets are preserved, and reduces the tax burden on retained earnings. With the right strategies in place, you safeguard not only your enterprise but also the wealth it generates for your family. With Optimize, insurance is not a separate product. It is a carefully integrated part of your wealth plan, designed to protect what matters most and give you the confidence to move forward with clarity.

Loans & Mortgages

“Optimize helped me turn my borrowing into part of my wealth plan — not just another loan.” — Optimize client

The right financing can turn today's borrowing into tomorrow's growth. Your Optimize team includes mortgage and lending experts who work alongside our planning and investment professionals to secure competitive rates and tailor lending to your long-term goals.

Residential Mortgages

Whether you're investing in real estate or upgrading your home, the right mortgage can make all the difference. Our mortgage specialists work with major lenders to negotiate the best terms and rates for your situation.

Home Equity Lines of Credit

Access up to 80% of your home's value to free up capital for investments or other priorities. With lower rates, flexible approvals, and potential tax-deductibility, Home Equity Lines of Credit (HELOC) provide both liquidity and a strategic advantage.

Put your home equity to work.

Free up capital to achieve your goals by borrowing up to 80% of your home's value. HELOCs offer a variety of advantages.

Lower interest rates than other types of loans.

Easier approvals than traditional mortgages.

Tax-deductible interest payments, depending on how you use the funds.

Greater access to funds, compared to traditional mortgages.

THE OPTIMIZE DIFFERENCE

Partnership

Your wealth. Your future. Our only agenda.

Confidence Through Independence

We answer only to you. Every strategy is designed with clarity and discipline, aligned to your goals, your legacy, and your vision of success. You gain access to a world of opportunity — from our in-house expertise to leading third-party solutions — delivered through institutional-level portfolios built for long-term performance.

Strength & Security for Your Wealth

Every Optimize account is safeguarded with bank-level protection. Assets are custodied at National Bank (NBIN), backed by more than \$300 billion in assets and trusted by over a million investors. Client positions are fully segregated and protected by the Canadian Investor Protection Fund (CIPF) and Canada Deposit Insurance Corporation (CDIC) insurance, giving you lasting confidence in your financial security.
